# Well positioned

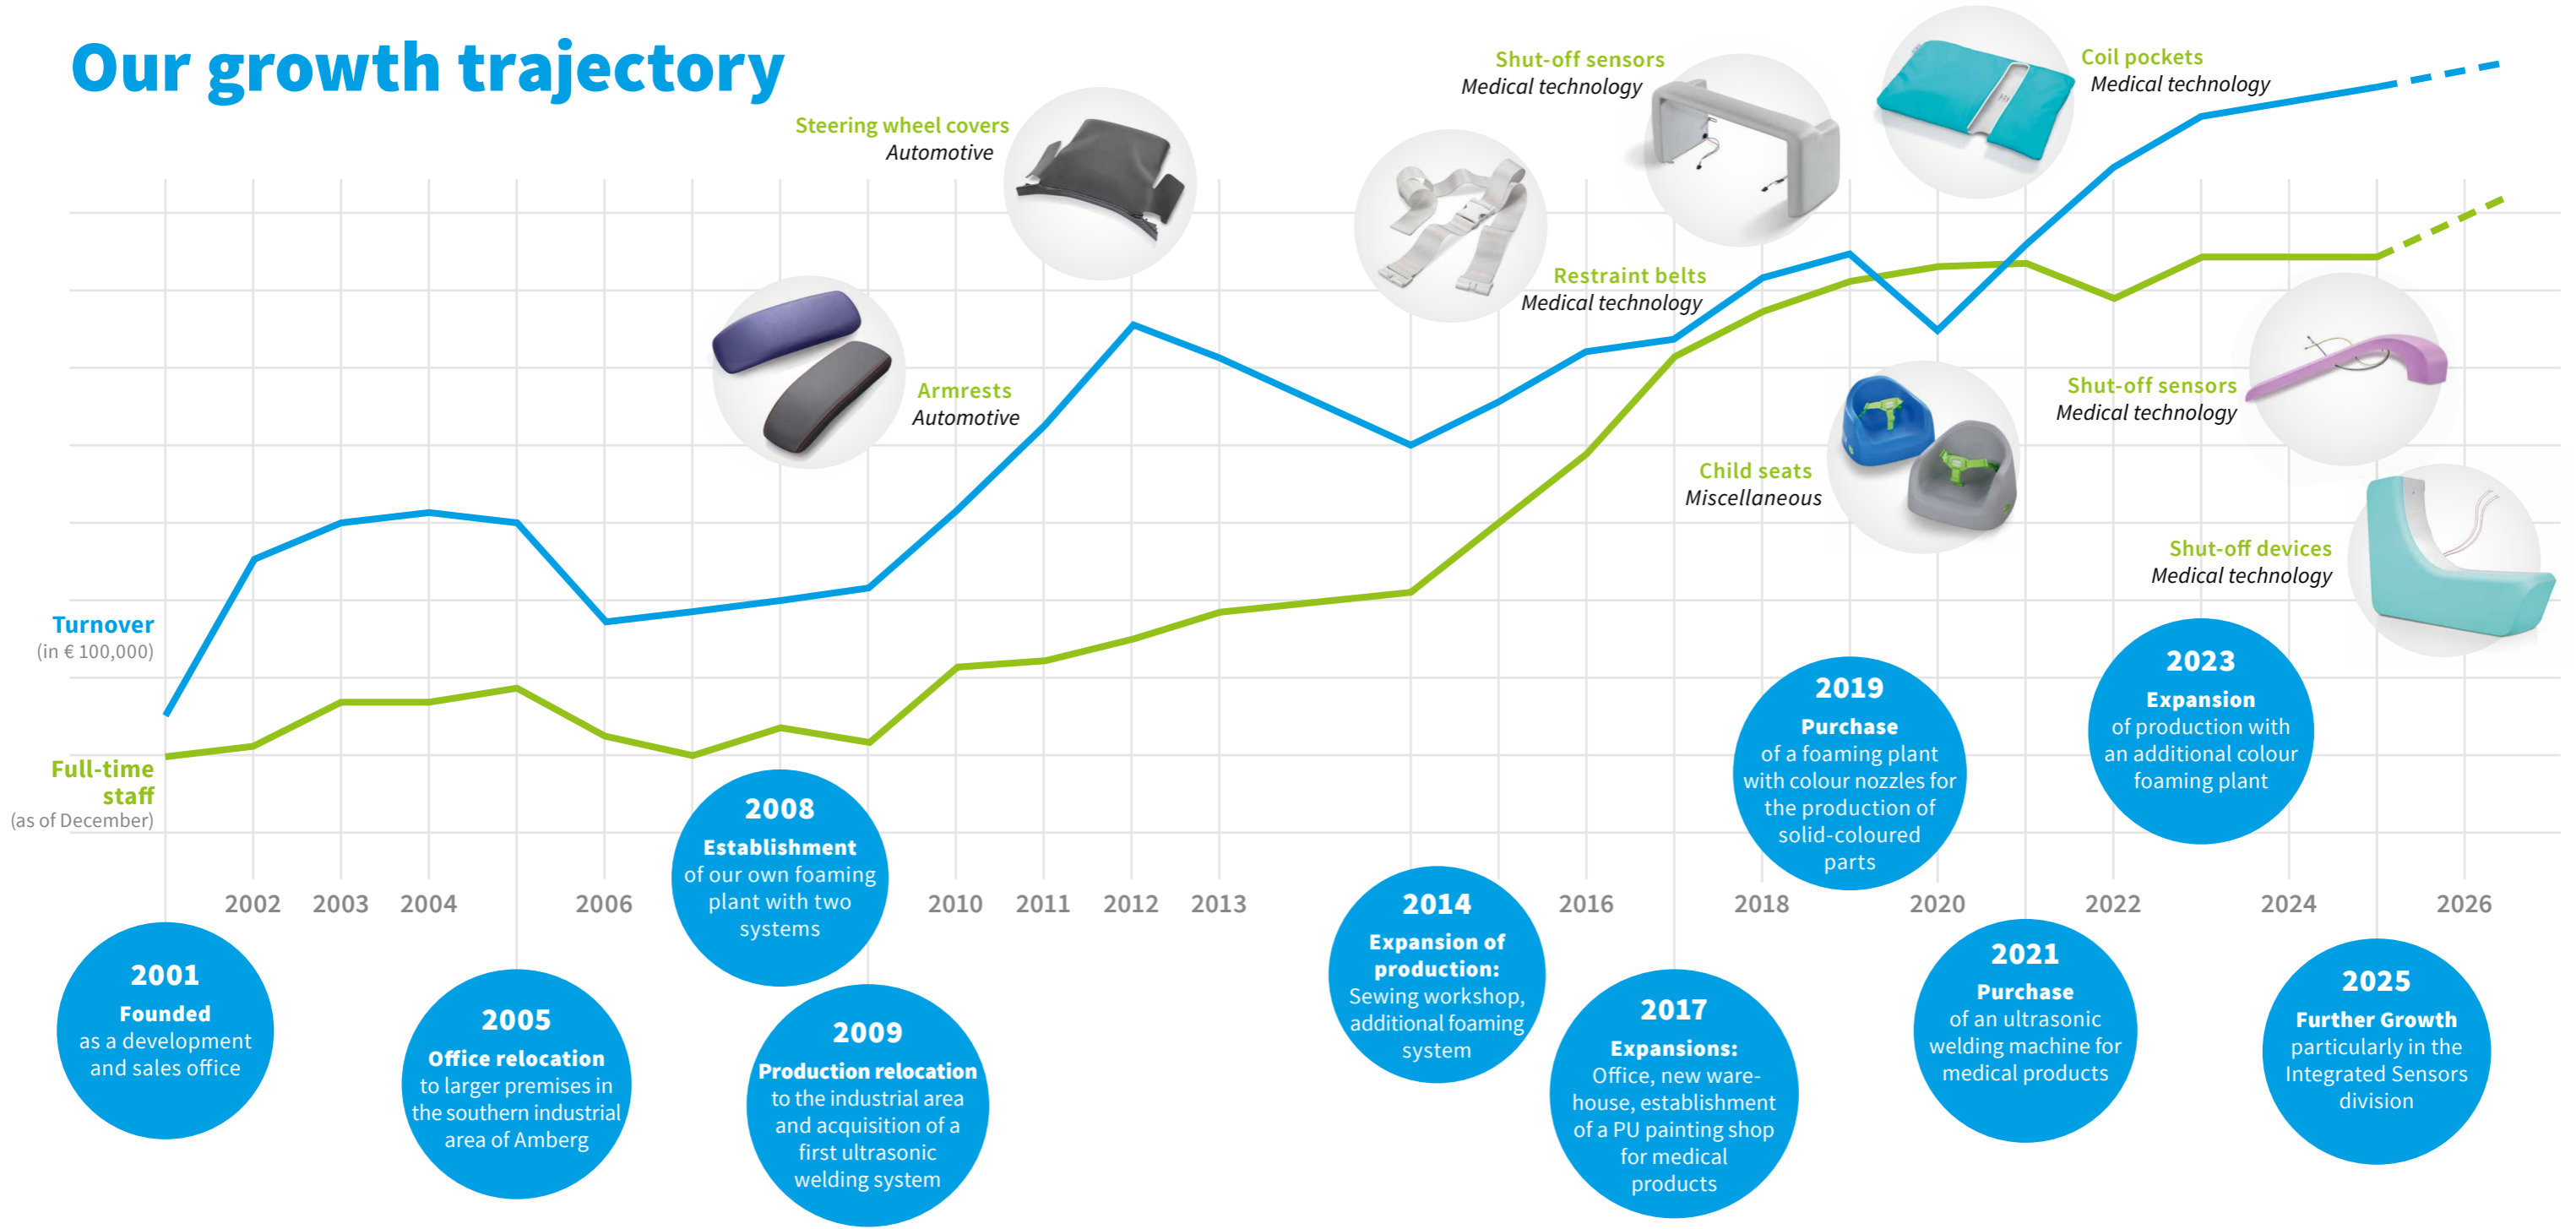

**Andreas Fuchs**  
**Head of Technology**  
Projects + CAD, Marketing, Outsourcing Partners, Product Launch Process, Process Engineering

**Matthias Hartmann**  
**Operations Management**  
Customer Centre and IT, Production, Warehouse and Shipping

**Thomas Bösl**  
**Managing Director/ Commercial Management**  
Sales, Purchasing, Quality Assurance, Occupational Safety

# Our growth trajectory

# PU foaming

for automotive, medical technology, wellness, office and packaging

- Selection of product-specific PU foam systems, tooling and manufacturing concepts
- Open-cell or closed-cell foams: soft foam, integral foam, semi-rigid or rigid foam
- Comprehensive colour spectrum
- Hardness from 15–85 Shore A
- Coordination of components and additives based on ecological and economic considerations
- *Approximately 400,000 shots per year*

## Product examples

**Automotive**  
Padded storage rings

**Medical technology**  
Positioning aids

**Automotive**  
Energy absorbers

**Miscellaneous**  
Child seats

**Quality management**  
**Moulded foam parts:**

- Indentation hardness testing
- Documentation

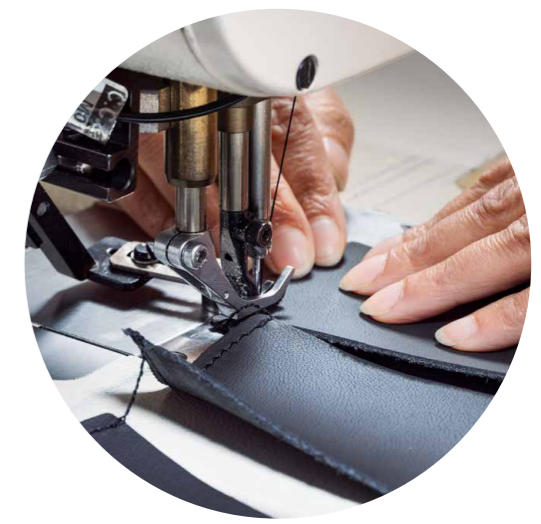

**Industrial sewing:**  
with modern machinery and qualified specialists

# Sewing/joining/connecting

for automotive, medical, wellness and office applications

- Processable materials: PU-coated backing fabrics, leather/imitation leather, plush, high pile and much more
- More than 30 colours in various qualities
- Laminated and unlaminated covering materials
- *70,000 sewing minutes per month*
- *More than 30,000 running metres of processed material per year*

## Product examples

**Medical technology**  
Restraint belts

**Car care**  
Washing utensils

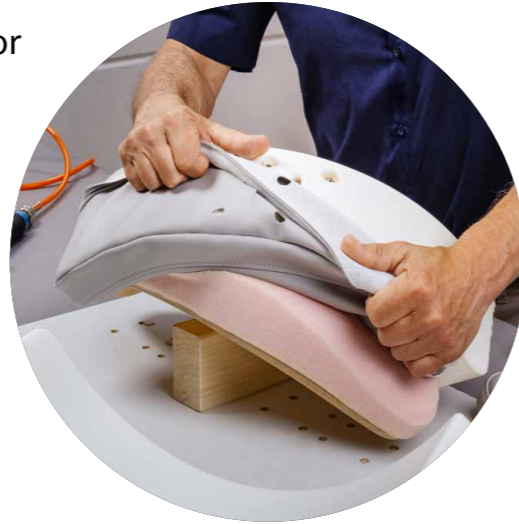

**Wellness/cosmetics**  
Headrests

# Upholstery and leather covering

*for automotive, medical, wellness and office applications*

- High-end products for the premium automotive sector
- Development of product-specific tooling and assembly concepts
- Stamped, cut or laser-cut blanks
- Processing by sewing and gluing
- Upholstery of imitation leather, leather and PU materials of various kinds
- **More than 100,000 upholstery parts manufactured per year**

## Product examples

**Automotive**  
Handrails

**Medical technology**  
Blood collection cushions

**Wellness/cosmetics**  
Treatment chair cushions

**Office**  
Seat stars

## Coating

- Seamless sealing with PU lacquer
- Permanently dense and elastic spray skin coating

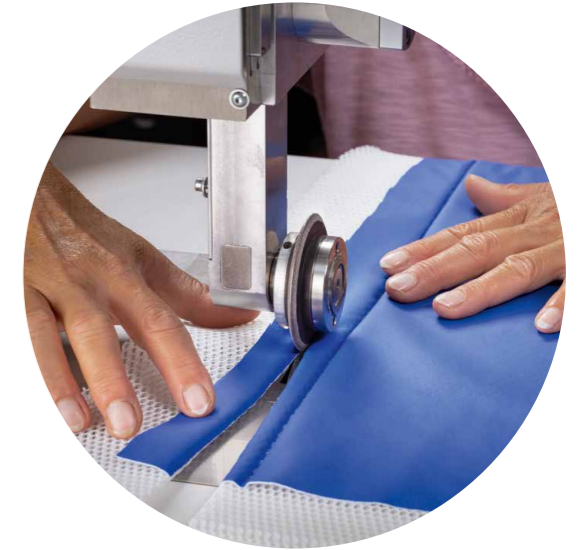

# Ultrasonic welding

*for automotive, medical, cosmetics and hair care*

- Efficient joining process without seam interruption
- Welding of thermoplastic materials (single or multi-layer)
- Tool-based production or free-form welding
- Automated production processes
- *More than 2 million parts already produced*

**Quality management**  
**Ultrasonic welding:**

Controlled and documented manufacturing processes

## Product examples

**Medical technology**  
*Protective covers*

**Automotive**  
*Armrests*

**Medical technology**  
*Fastening straps*

A light blue map of Germany is centered on a dark blue background. The map shows the outline of the country with several major cities marked by a small blue dot and labeled in a light blue font: Hamburg (top left), Berlin (top right), Nürnberg (middle left), and München (bottom center). A white QR code is positioned in the center of the map, below the Berlin label. The text 'Pi-Concept GmbH' and contact information are printed in white below the QR code.
